313 OLIVE ST. BONDS, STOCKS AND SECURITIES,

GENERAL SHAKING OUT OF THE WALL STREET MARKET.

DECLINE STARTED BY SELL ING FOR PROFITS.

Bulls Withdraw Their Support-Outsiders Take on Long Lines of Stocks.

New York, June 19.-There was quite an animated shaking out of speculative acents in to-day's stock market and a sharp reaction from the recent prolonged advancebecame evident soon after the opening this morning that the real culmination of the rise had occured. The leading speculative interests in the market apparently took advantage of the stimulatling influence of yesterday's excited rise in Illinois Central to take their profits. This morning there were some operations that seemed to represent continued efforts to advance the market by one or two of the important speculative parties, whose joint efforts have induced the late rise. But the effective support of the principal speculative interest was lacking and the professional traders were able to detect sales to take profits for that account. They needed no other invitation to turn nggressively to the bear side, and they sold the list throughout with great freedom. Prices gave way readily and fell on an average from one to two points low last night's level.

Rallies Followed Precipitate Selling. The bears were so precipiate in their selling that they were obliged to bid quite argently for stocks when they came to take profits, causing some substantial rallies. With the demand from the shorts take profits causing some substantial rallies. With the demand from the shorts
satisfied, the market yielded again and
closed dull and irregular. The whole movement was technical and was as little affected
by news of the day as the previous advance
has been. The activity of the bears was
evident in the circulation of alarmist rumors afterwards dealed. One of these was
that Mr. J. P. Morgan was seriously ill, Another was that a fresh judicial decision had
been rendered against the United States
Steel bond issue. The early weakness was
confined to stocks which have been the
favorites during the bull campaign, but active selling of United States Steel developed
under the influence of these rumors and
carried that stock down 1 5-8 below last
night. The long-continued rise in stocks
has made the professionals alert for signs
of reaction, which was considered overdue.
The short selling from time to time has encouraged the buils to extend the advance
and force covering. A large portion of this
short account was forced out in yesterday's
jump in prices, adding to the technical weakness of the market to-day.

Farmers Become Interested.

Farmers Become Interested.

ď.

ress of the market to-day.

Farmers Hecome Interested.

The stirring of interest by outsiders, which was first manifested yesterday, also facilitated the profit-taking by the insiders in the bull campaign. There was no unfavorable news to-day which has not been under discussion for some time past. But in the changed sentiment of the speculation additional consideration is given by the national convention of coni miners and the effort to bring about a general strike. The too abundant rains where wheat harvesting is in progress and the continued drought in Texas also received more attention than hitherto. Sterling exchange was still firm here and decilined at Paris, both movements tending to increase the pressure on New York for gold. Various new bond issues which are being advertised indicate large requirements upon the supply of credits in addition to the demands for the coming seminanual settlement. Individual causes aggravated the weakness of some special stocks. Doubts were expressed over the maintenance of the present dividend rate of Colorado Fuel. Minor incidents of the day were declines of 10 points in International Power. 4 in Rutiand pid. and 4½ cach in Ice pid. and Brooklyn Union Gas. Bonds were weak in sympathy with stocks. Total sales par value \$3,110,000 United States bonds were all unchanged on the last call.

Wall Street Gossip.

Reported by the New York Commercial Advertiser through Francis, Bro. & Co., No. 214 North Forest Programmer of the Artifer of t

United States Steel—The feature of the market to-day was the weakness in Steel common. The decline started with large sales by Ladenburg. T. & Co., followed by scattering commission-houses and later by room traders. There were various rumors in direculation purporting to account for weakness in the stock. One was that Mr. Morgan was seriously ill and another that two or three legal decisions unfavorable to the company had been handed down. These reports were denied. The selling came chiefly from commission-houses and was long stuck from holders, who argued that if the preferred conversion plan should be

abandoned the company would issue \$50,000,000 of bonds, which would greatly impair the common stocks of future dividend prospects. There is a considerable short interest in Steel, Boston be-ing especially bearish on it.

Missouri Pacific-Profit taking started the early decline in Missouri Pacific, the stock selling at 106th. The weakness in other securities of the market encouraged the room traders to put out short lines in the stock. At the low level, Butler Bros. came in as lowers, taking 20,000 shares in all. A sharp rally followed, the stock being the strong leader of the afternron market.

fillinois Central. There was profit-taking in Illi-nois Central on the theory that "the good news was out." On the whole the street was not buil-ish on stock. Insiders claimed that the company would earn 10 per cent on the entire \$55,00,00 of stock, but it was pointed out that on the basis of new capitalization the earnings would figure out but 7 per cent in 1841, 6 per cent in 1600 and 4% per cent in 1859.

Colorado Fuel and Iron—The weakness in Cal-ser do Fuel and Iron was due to seiling bised on benef that the Gates party would be defeated in effects to cause the declaration of full divi-lend at meeting to be held in Denver this week, it was said that the Osgood interests were in control of the situation, and that they were in favor of spending the money in making needed improvement, rather than for dividend purposes.

Distilling of America—The room heard to-day what the plan for the resadjustment of Distilling Company's finances would be in all probability. The 21 per cent dividends on the 7 per cent cumulative preferred are to be paid off in 5 per cent bonds, while a single issue of stock will replace the two issues now outstanding. The present common stock will get approximately 1; per cent new stock, and the preferred approximately 70 per cent new stock.

Miscellaneous—The principal selling in Reading care from Philadelphia houses and the brokers often used by the Chicago crowd, though Gates brokers were buyers. Western contingent the brokers were buyers. Western contingent the breadted with selling Union Facility, Alchemand St. Paul, though in the latter stock them and St. Paul, though in the latter stock there were some apprehensive of support. American Ico common and preferred made new low records in fresh liquidation, accompanied by reports of unfavorable trade prospects.

### STOCKS BARELY STEADY AT CLOSING SESSION.

COAL AND COKE GRADUALLY EASES OFF.

Tractions Work Lower, but Bank Issues Continue in Good Demand.

Local securities were in good demand early, but later selling orders came out rather freely and at the close the market was little better than steady on the most active issues.

Tractions, though well taken, did not show the same aggressive strength as on Wednesday. Transit was firm at \$31.37%. United Railways, preferred, opened well at \$84.25, but eased off to \$84.125.

Mississippi Valley was active and in fair demand at \$453.50 and \$458. Missouri Trust eased off from \$124.25 to \$126. Germania was well taken at \$213.50. In the bank list German Savings was the feature, with bids up to \$415 and no offers. Band of Commerce was rather easy at \$404.50.

with rights and \$404 without rights. Mer-chants'-Laclede showed some strength, with chants - Laclede showed some strength, with a sale at \$197.50. Central Coal and Coke was again sold back and forth somewhat freely, with a range from \$67.50 to \$68.50. The stock was on the down-turn at close of the morning session.

session.

In the afternoon tractions were again easy. Transit dropped to \$21.12\frac{1}{2}. Preferred was let go at \$31.12\frac{1}{2}, and the 4 per cont bonds were weak at \$37.50.

Trustcompany issues were generally fractionally easier, with little trading in the group. group.

Mechanics' National advanced to \$20 on the announcement that the quarterly dividend had been increased from 2 to 2½ per cent. The books close to-day and open Central Coal and Coke declined from \$68.25 to \$67.75.

Morning Session.

New York Curb Market. REPUBLIC SPECIAL.

New York, June 19.—The market to-day opened quiet, but somewhat irregular. Dealings were restricted, and in only a few issues was the

volume in excess of nominal proportions. The heaviness of the inside market had a depressing effect upon the curb, and there were realizing in issues that have scored recent advances. The middley session was dall and dealings continued narrow and rather featureless daily the close. The final tone reflected irregular price changes for the day, and total transactions were estimated as about 19,000 shares.

Northern Securities was the prominently weak issue, and after selling at the opening at 1904, 1905, if fell to 1914, 38 later in the afternoon it sold at 104, with trades totaling about 4.00 shares strong and sold up to shares. Standard Off was strong and sold up to shares about 50 shares. United States States solidated Copper sold at 254, 673, and 154, 690 shares. Tennessee Copper sold at 154, 691 for 500 shares. Hilinois Transaction at 11, for 100 shares.

COURT SALES IN THE EXCHANGE Real Estate Directors Want Auctions Conducted There.

The Board of Directors of the Real Estate Exchange at its regular meeting yesterday afternoon received letters from the Judges of the Circuit Court pledging their co-operaof the Circuit Court pledging their co-operation whenever possible, in an effort to have
all trustee, and other forms of court sales,
held on the floor of the exchange.

The Judges stated that when the parties
to sales in cases before the court selected
the Courthouse door it was the custom of
the court to so order, but that in most
cases the Courthouse door was selected
through ignorance of the possibility of conducting the sales at the exchange, wherebetter crowds would be drawn.

Sheriff Dieckman in a letter also informed
the exchange that he would do all in his
power to have legal sales take place on the
exchange floor.

City Legislators Will Take Trip on Harbor Boat Saturday. Members of the Municipal Assembly and

Board of Public Improvements have been invited by Harbor and Wharf Commissioner Whyte to take a ride on the harbor boat, which is officially known as the "Mark Twain." The Council has accepted the invitation and the House probably will do the same to-day.

The voyage will be for business and pleasure. The city's lawmakers desire to get a general idea of the wharf and wharf property owned by the city, leased and unleased. If time remains after inspecting the wharf south of the Eads bridge, the "Mark Twain" will carry the party as far north as the Chain of Rocks, and the waterworks land and pumping station there will be examined. The St. Louis harbor extends from the mouth of the Missouri-River to the mouth of the Meramec River. sioner Whyte to take a ride on the harbor

FORTY-FIVE MORE SUMMONSES.
